Re-Enable Jamf Connect Login/disable Jamf Connect Notify
(When doing a major macOS upgrade (e.g., upgrading from macOS 10.15.7 to macOS 11.0.1 or later this required)

If ran via Jamf policy
```
/usr/local/bin/authchanger –reset –jamfconnect
```
If ran via Terminal
```
sudo /usr/local/bin/authchanger –reset –jamfconnect
```

Enable Jamf Connect Notify

If ran via Jamf policy
```
/usr/local/bin/authchanger –reset –JamfConnect –Notify
```
If ran via Terminal
```
sudo /usr/local/bin/authchanger –reset –JamfConnect –Notify
```

Uninstall Jamf Connect

If ran via Jamf policy
```
curl –L "https://raw.githubusercontent.com/kylejericson/
JAMF/master/Scripts/rmjamfconnect.sh" –o /tmp/rm.sh && sh /
tmp/rm.sh
```
If ran via Terminal
```
curl –L "https://raw.githubusercontent.com/kylejericson/
JAMF/master/Scripts/rmjamfconnect.sh" –o /tmp/rm.sh
```

```
sudo sh /tmp/rm.sh
```
